1. Industrial Flooring

Industrial flooring system from Epixon Africa deliver highly resilient and durable workhorse surfaces suited to use in a wide range of demanding industrial plants and process environments.

Industrial SL(1-3mm)

Industrial SL(1-3mm) is a self-levelling epoxy floor coating system that proves an attractive, seamless gloss finish.

Providing protection against a range of acids, alkalis, solvents, alcohol and fuel, Flowshield SL is mainly used in dry processing areas due to its ability to withstand high mechanical and chemical stress. Available in a range of vibrant colors, the systems low maintenance and excellent wear resistance makes it a popular choice.

Product Benefits

- Excellent chemical Resistant
- Wear Resistant
- Easily Cleaned
- Decorative
- Non-dusting
- Seamless finish
- Thermal Resistance
- Excellent abrasion
- Rapid installation

General paintworks, Tiling and grouting

Our Core Services

General Paintworks

At Epixon Africa Ltd, we deliver premium painting solutions designed to enhance, protect, and transform spaces. Our services cover residential, commercial, and industrial projects, with expertise in both interior and exterior applications.

We undertake thorough surface preparation including cleaning, crack repair, sanding, and priming to ensure maximum paint adhesion and durability. Using high-quality coatings and modern application techniques, we achieve smooth, uniform, and long-lasting finishes that elevate the overall appearance and value of your property.

Tiling Works

We provide expert tiling services that combine precision, durability, and aesthetic excellence.

Our team handles installation of a wide range of tiles including ceramic, porcelain, marble, granite, and decorative finishes for floors and walls.

From proper surface leveling and layout planning to accurate alignment and cutting, we ensure each installation meets the highest standards. Whether for residential homes, commercial buildings, or industrial spaces, we deliver clean, symmetrical, and visually appealing results tailored to your design preferences.

Grouting Services

Our professional grouting services are designed to reinforce and enhance tiled surfaces.

We use high-quality grout materials to ensure strong bonding, water resistance, and long-term durability. Our scope includes new grouting, re-grouting, and grout restoration for aged or damaged joints. With attention to detail and clean finishing, we provide seamless joints that improve structural integrity, hygiene, and overall appearance of tiled surfaces.

Waterproofing

Epixon Africa Stocks all the commonly used waterproofing materials in Kenya including cementitious material, bituminous material, liquid waterproofing membrane and polyurethane liquid membrane etc...

Waterproofing in buildings and structures are generally required for basement of structure, walls, bathrooms and kitchen, balconies, decks, terrace or roofs, green roofs, water tanks and swimming pools etc...

We have the following waterproofing solutions.. Refer to website for detailed technical details www.epixonafrika.com

- Cementitious Waterproofing
- Liquid Waterproofing Membrane
- Bituminous Membrane
- Bituminous Coating
- Polyurethane Liquid Membrane

Cementitious Self Leveling Screed

Epixon Africa offers high-quality cementitious self-leveling screed solutions designed to create smooth, level, and durable floor surfaces before the installation of final finishes such as carpets, vinyl, tiles, and laminate flooring. Our advanced screed system flows effortlessly to eliminate surface imperfections, unevenness, and minor defects, providing a flawless base that enhances the performance and lifespan of your floor finish

Key Benefits:

- Perfect Leveling: Achieves a smooth, even surface ready for final finishes
- Ideal for Floor Finishes: Suitable for carpets, vinyl, LVT, tiles, and more
- Fast Drying: Allows quicker installation and reduced project timelines
- Strong & Durable: High compressive strength with minimal cracking or shrinkage
- Excellent Bonding: Reliable adhesion to concrete and prepared substrates
- Versatile Use: Suitable for residential, commercial, and industrial spaces
